Your Stamp to Quality

STONE CANYON LODGES & PARK MODELS, LLC.

STONE CANYON LODGES has been building quality park model cabins, homes and chalets for over 11 years. Our goal is to build a highest quality park model cabin, home or chalet that will provide you, your family and friends, memories that will last a lifetime and for generations to come, at a very affordable price! We build all season cabins, homes and chalets on wheels, that happen to be park models!

Your New Cabin Awaits You!

# MANY FLOOR PLANS TO CHOOSE FROM OR CUSTOM BUILD

choose from many *kitchen designs*

*bathrooms* with a view

*bedrooms*

with cedar-built closets

Upgrade your *Ultimate* cabin with a 9/12 roof pitch, large trapezoid windows, large chalet dormers, stainless steel kitchen appliances, surround sound systems and more ...

*You Dream It and We Build It!*

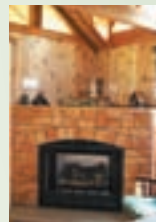

We are professional custom builders of rustic recreational Park Model cabins, homes, chalets, custom office units or lodges.

Our Park Models are built using all stick built materials.

We assure you that your cabin will last a lifetime and generations to come! Choose from cedar, pine, and a sheet rocked interior.

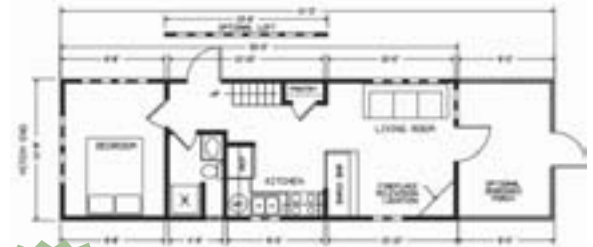

We offer hardwood floors of any wood, large trapezoid windows, large chalet dormers, special doors and so much more.

On the exterior we use Cypress Log, Cypress Lap, Smart (Hardy Board) and Vinyl siding on our Park Models. We use the building industry's highest quality products and do not use RV materials. Again, our cabins are stick built cabins. Stone Canyon Park Models can be used for all seasons! With our R-22 insulation package in the floor and ceilings and R-19 in the walls along with vinyl double pane four season windows and doors.

We offer many standard floor plans or we will custom build to best fit your needs!

OUR #1 CUSTOMER-VOTED FLOOR PLAN IS THE *"Anglers Lodge Cabin"*

Open & Screened-In Porch is an optional upgrade.

This popular "Anglers Lodge Cabin" is 12' x 33' with 6" eaves on each side.

Stone Canyon park model cabins, homes and chalets are constructed with real stick built materials like a traditional home or cabin. Therefore, our cabins, homes and chalets require additional axels on a 10" or 12" iron chassis to support their weight. Other park model manufacturers' products are not nearly as heavy as our cabins, homes and chalets; therefore, you will only see two to three axels where we will have up to seven axels on ours. This fully illustrates the amount of lumber and materials that are used in our construction of our cabins, homes and chalets.

Once your Stone Canyon park model cabin, home or chalet construction is completed, it is delivered to your location with our professional transportation company.

**IDEAL FOR RESORTS, CAMPGROUNDS, CASINOS AND LODGING BUSINESSES.**
